Warm Weather Brings Smiles to Farmers and Resort Owners Here

Cold, Rain Delay Planting; Crowds Now Flocking to the Lakes

The calendar summer will not begin until tomorrow (Friday) but summer weather arrived Sunday.

After a wet and cold spring, Old Man Weather was able to adjust his weather carburetor to the right kind of temperature and Antioch and Lake Villa township people were happy, especially those who operated resorts.

Resort owners in the Antioch area said they had good business Saturday and Sunday for the first time this year. Normally the season opens two or three weeks earlier.

The warmer weather brought smiles too, to the farmers in Northern Lake County and Southern Kenosha County, for they were able to finish planting their corn and soybeans. Corn planting is three weeks late this year and it will hustle the corn to reach the usual knee-high by the Fourth of July. If it doesn't there will be a race to reach maturity before the first frost. Hay making too was delayed.

Clarence Kufalk who took care of the U. S. Weather Bureau temperature readings while his brother, Roy was on vacation, said there has been a total of 2.17 inches of rain this month. The highest temperature so far was 91 degrees on Monday.

The recordings of the past week were:

Date	Max.	Min.	Rain inch
June 12	82	57	.50
June 13	74	54	.35
June 14	75	61	.09
June 15	82	63	
June 16	89	70	
June 17	91	70	
June 18	83	54	

Funeral Yesterday For Mrs. Helen Glimkowski

Funeral services were held at 10 a.m. yesterday at St. Peter's Church in Antioch for Mrs. Helen Glimkowski, 71, who died at 4:45 p.m. Saturday at the home of her daughter, Mrs. Pearl Strzalka in Venetian Village.

She had been in failing health for 15 years.

Born Aug. 15, 1885 in Poznan, Poland, Mrs. Glimkowski was 11 years old when she came to America. She lived in Knowlton, Wis. for 30 years, then moved to Chicago where she resided 30 years.

Mrs. Glimkowski spent much time with her daughter in Venetian Village in recent years. She was a member of St. Fidelis Catholic church in Chicago.

Surviving are five sons and four daughters, none of which, with the exception of Mrs. Strzalka, live in this area. There are 21 grandchildren and 10 great grandchildren.

Her husband, Alexander, died 21 years ago.

Burial of Mrs. Glimkowski was in Mt. Carmel cemetery, Antioch.

Nettles Attend Dance Festival at St. Louis

Mr. and Mrs. Glen Nettles of North ave. attended and participated in the National Square Dance convention at St. Louis last week.

Dancers of all ages from 43 states, Alaska, Canada, and Mexico made up the 12,000 dancers who competed for honors, attended clinics on the American folk dance, and others who just went to dance.

The three-day festival included classes in which people were tutored on new steps. There were panel discussions and work shops for teachers of dancing.

Arthur Lowell said that 99 percent of the persons registered were married couples, and said that the reason square dancing is so popular is that the dances are based on participation in pairs, making it a natural for married persons.

To Teach in France

Miss Joan Crawford, former teacher in the Antioch Grade school will arrive home this weekend from Japan where she has been teaching during the last two years. She had American soldiers' children as her pupils. She will teach next year in France.

Janice Kiehl, daughter of Mr. and Mrs. Ward Kiehl, has enrolled for an 8-week course in dental nursing at Marquette University. She will continue working at the dental office of Dr. Richard Carlucci on her return.

Mr. and Mrs. C. W. Wikoff and children of Urbana, Ill., spent Father's Day with Mrs. Wikoff's parents, Mr. and Mrs. Joseph Rhymer.

Grade School Registers For Kindergarten and First Grade, Week Days

Officials of the Antioch Grade School are asking new families in District 34 to register their children at the school any week day between 8:30 a.m. and 3:30 p.m.

All kindergarten and first grade pupils enrolling in this district for the first time must present birth certificates as proof of age. Children residing in the district are eligible to attend kindergarten if their fifth birthday is on or before Dec. 1, 1957. Those who will be six years old on or before that date may enroll in the first grade.

A fee which will include insurance will be charged for kindergarten.

Antioch Woman's Club Forms Art Club And Plans Own Program for Next Year

Formation of an Art club was planned by the 15 members of the Antioch Woman's club board at a meeting yesterday at the home of the president, Mrs. Clarence Olson.

Mrs. Einar Petersen was named chairman of the new club, which will sponsor a high school student at the Art Camp next year.

The Woman's club will meet at the Scout House during the coming year and plans were made for the programs.

Mrs. Clarence Spiering reported on the Garden club meetings which were quite successful during the past year.

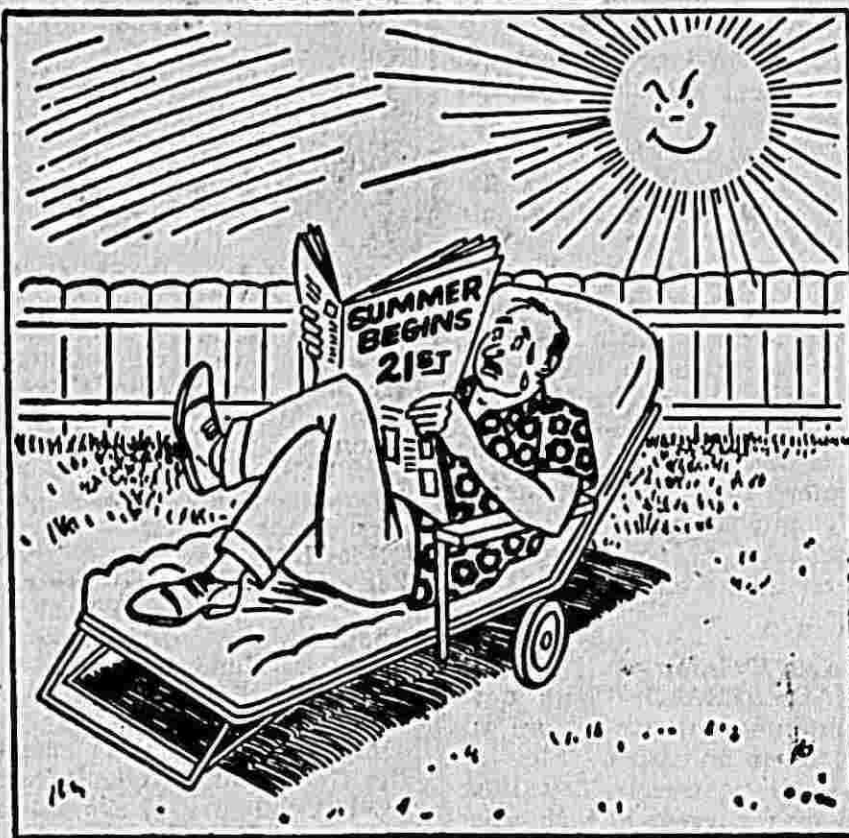

Mrs. W. C. Petty was appointed parliamentary for the club.

Mrs. Donald Francisco and her committee will continue to entertain and serve refreshments one evening a month at a ward in Veterans Hospital at Downey.

Several members plan to go to the buffet luncheon and summer meeting Thursday, June 27 at the Lake Forest College Commons.

The next board meeting will be held Monday, Aug. 12 at the home of the president, Mrs. Clarence Olson.

NOW IT'S OFFICIAL

Warm Weather Makes Aqua Center Popular; Classes in Swimming to Start Next Week

The Antioch Aqua Center became a popular place Monday and Tuesday with the temperature soaring above the 90-degree mark. Monday was the big day in attendance. The water of the pool has now warmed to a 78-degree temperature making swimming conditions ideal.

Maureen Smith, who served as guard last year, again is back on duty.

The Red Cross "learn to swim" classes will start next week with instructors for beginners, intermediates, adults, swimmers, and junior and senior life savers.

Classes will be offered on Monday and Wednesday or Tuesday and Thursday mornings for a six-week period. Adult classes will be at 7:30 p. m. Wednesdays.

Those who have a preference for morning classes are asked to register early. The life saving classes will be at 9 a. m. Tuesdays and Thursdays.

Mrs. Karen Baird and Mrs. Winnie Sorensen have been engaged to assist with the program. Mrs. Baird taught physical education at the high school last year and has had previous experience in teaching water safety.

The pool is now open daily from 1:30 to 9 p. m. and registration blanks may be obtained there.

New High in Church Attendance Reported

Church attendance in the United States during 1957 is off to a record start. The most recent Gallup Poll reported 52,586,610 Americans attending churches and synagogues regularly compared with 49,600,000 in late 1955. Adult attendance at worship services has increased 11 per cent in the last 7 years according to the survey.

The increase is partially credited to the Religion in American Life movement which was organized in 1950 to emphasize the importance of religion in personal and community life. It is sponsored by a layman's committee composed of members of the major faiths and is supported by 24 national religious bodies. RIAL campaigns are held annually in thousands of American communities under local sponsorship. Each year since RIAL began its work church attendance has steadily grown.

Baby Daughter Christened

Burlington Brothers Jump to Safety When Soo Train Hits Truck

Two Burlington, Wis. brothers leaped from their truck just in time Monday noon to escape being struck by a Soo Line freight train at the Trevor, Wis. crossing.

They are Charles B. Lois, 27, driver of the truck, and his brother, Thomas, 21.

The driver said he did not see the approaching train until the last minute and then when the truck stalled and he saw they would not make it across, he and his brother jumped.

A moment later the train struck the truck and tossed it to one side. The cab and the under carriage of the truck were smashed, and the load of soda bottles was spilled and broken over the right of way. The train was stopped and when it was seen that no one was hurt, continued on its way.

Kenosha County sheriffs got word of the accident about an hour later and investigated.

U. S. Supreme Court Says Pinball Tables Are Gambling Devices

Sustains Fine of Proprietor of Korpan's Fox Lake Resort Tavern

Uncle Sam is going to collect the federal tax on pinball machines.

The United States Supreme Court ruled Monday that pinball machines are gambling devices and that the government can collect the \$250 on them the same as slot machines, or one-arm bandits.

The ruling of the U. S. court was in disagreement with the Supreme Court of the State of Illinois which was that a pinball machine that does not pay out money, but merely gives free play awards is not outlawed.

The federal judges took a realistic view saying that if the lower court's decision had stood, the government would be limited to slot machines and the various ingenious devices would escape the tax.

The ruling was in the case of Korpan's tavern at Fox Lake where pinball machines were seized because the federal tax was not paid on them.

Korpan was indicted by a federal grand jury and fined \$750 for failure to pay the federal tax. He appealed the case to the U. S. Court of Appeals which reversed the district court decision. The Supreme Court held with the district court. State's Atty. Thomas Moran said he will await a copy of the federal court's decision and an interpretation from Atty. General Latham Castle before banning the machines.

Firemen Represented At County Meeting; Convention Here, 1958

The Antioch Fire Department will be represented Monday evening at the Lake County Firemen's Association meeting at Round Lake when officers for the coming year will be chosen. The Antioch department will be host to the annual convention next year.

Chief Edgar Simonsen and Russell Stowe attended the State Fire college at Urbana June 16 to 13 inclusive. They reported several new ideas in fire fighting.

Takes Trip to Hawaii

Miss Gail Deitrick, teacher of a first grade class in the Antioch Grade school, left by plane Tuesday for Los Angeles, Calif., where she will spend a few days before flying to Hawaii for a 21-day tour of the islands. She was accompanied by Miss Sue Anderson of Ravinia, Ohio, who was her roommate at Miami University, Oxford, O., who will make the trip to Hawaii with her. On their return they will stay several days in San Francisco.

Gets Award for Scrap Book

Mrs. Deborah Van Patten, publicity chairman for the American Legion Auxiliary, was notified that her scrap book won first place among such books in the tenth district and she will receive her award at next Monday's meeting.

New 4-H Club Unit

The Lake Region Home Bureau unit met Tuesday evening with the American unit at the Lake Villa Methodist church where Mrs. Helen Volk, home adviser, gave a demonstration on outdoor cooking. The unit now sponsors two 4-H groups. Mrs. Glenn McNeil has started a club at Lake Villa and Mrs. Peter Kisel is continuing as leader of the Antioch Acorns.

Kildeer Lays Eggs in Driveway at Residence Of William Jorgensens, Sr. in Antioch Hills

When a kildeer chose a driveway at the home of Mr. and Mrs. William Jorgensen, Sr., in Antioch Hills to lay its four eggs, it trusted the protection of the Jorgensens and the bird will get it.

The Jorgensens saw the bird rustling in the stones of the driveway, but did not realize it was nesting until they discovered three eggs in the saucer-like depression. A day later, there was a fourth egg.

Now the driveway is blocked off to traffic and another driveway is being used instead as the Jorgensens attempt to give the mother bird a chance to hatch its brood.

Mrs. Jorgensen said that normally there are not many kildeer in this area, but this year there are many.

The Jorgensen home is on Antioch Lake, at Parkway and Lake View Terrace. They say the white eggs with black spots blend in with the color of the stone and are not easily detected. They are a little larger than a pigeon egg.

July 4th Celebration To Include Fireworks Antioch Firemen Say

Department Dance Is Now Given Attention by the Local Firemen

Antioch's Fourth of July Celebration sponsored by the Antioch Fire Department is nearly wrapped up so far as plans are concerned. Saturday, July 6 was chosen as the date in event of rain.

Chief Edgar Simonsen said that the fireworks display obtained from the Star Fireworks Co. at Danville, Ill., will be larger than last year when an excellent display was provided. The company will send a man to do the firing.

The display will be exhibited at the grounds east of the Soo Line tracks at Ida Ave. Parking will be provided the same as last year, with the firemen, auxiliary police and Antioch Rescue Squad members assisting in the directing of traffic.

A band will be formed to provide entertainment until the shooting of the fireworks start.

Antioch businessmen who contributed to the fireworks fund are planning the decorating of the business area during the holiday.

Firemen's Dance June 29

In the meantime the Antioch firemen are giving their attention to their annual dance which will be held June 29 at the fire station and Rescue Squad headquarters. King Jaros' Orchestra will provide the music. Jaros musicians have been playing for No. 3 Moose lodge in Chicago.

Chief Simonsen said that ticket sales for the dance are going good.

The Arthur VanPattens Observe 50th Wedding Anniversary on Sunday

Mr. and Mrs. Arthur H. Van Patten of Rte. 21, celebrated their 50th wedding anniversary Sunday with their children and their families and other relatives assisting.

They are the parents of two sons, Ray and Kenneth Van Patten of Antioch; and three daughters, Mrs. Helen Lewis of Bristol, Wis.; Mrs. Jean Zmielewski, Chicago; and Mrs. Edna Tonkin of Waukegan. There are 15 grandchildren.

The Van Pattens were married June 12, 1907 in Chicago. Mrs. Van Patten was formerly Sybil Fillweber. They lived in Chicago a while before moving to Antioch.

So that the children and grandchildren could be with them to celebrate the Van Pattens delayed their celebration from Wednesday until Sunday.

The children planned a surprise party and invited relatives and friends from a dozen other cities and villages so that approximately 199 persons were present during the afternoon for a luncheon.

Places represented by the guests were Burlington, Broadhead, Janesville, Elkhorn, Genoa City, and Kenosha, Wis.; Waukegan, Chicago, Sycamore, McHenry Ringwood, and Solon Mills, Illinois.

Quantity and Quality

More than two hundred years ago Thomas Fuller remarked that to sell cheaper means that either quality or service must be cut—usually both. Of course, this principle was laid down before mass production and its partner, mass distribution, existed, and these two forces have changed matters enormously.

Another statement by the same man however is as completely true today as it was then: "A fair profit must be made or one does not last long."

The modern retailer, chain and independent, has brought down prices by trading in greater volume. By this means goods can be sold cheaper and still be of quality. By the same means the standard of service can remain excellent and a "fair profit" can be made. Thomas Fuller and the retailers of his day would have considered the percentage of profit earned under modern merchandising methods fantastically small.

Mass merchandising has outmoded the old theory that in order to sell cheaper, quality or service must be cut.

Texas Looks Toward Idaho

It's a long way from Texas to Idaho. But a Texas newspaper—the Daily News of Longview—in concerned with good reason about something that may happen in Idaho if a certain measure proposed in Congress is approved.

Here a little background is in order. The measure in question would authorize a federal high dam on the Hells Canyon reach of the Snake River in Idaho. The Federal Power Commission, after exhaustive hearings, licensed an Idaho utility company to start on a three-dam project there, and it is now well under way. The socialized power groups then went into court to try to get this set aside. The battle was lost when the U. S. Supreme Court held that the FPC's license was valid. So the current effort to get Congress to vote the federal high dam represents the last hope of the socialists and the socialist-minded.

Why should the Texas newspaper be interested? That's simply answered. The total cost of the federal high dam is figured at \$509,700,000—including project construction, interest during construction and transmission facilities—and it all would come out of the pockets of the taxpayers at large. Texas now bears 4.39 per cent of the total federal tax burden. Therefore, Texas people would have to contribute the handsome sum of \$22,375,830 to help build that dam way off there in Idaho. If, on the other hand, the private utility continues the job, the taxpayers will contribute nothing and all the money will come from private sources and savings—and, incidentally, the utility will pay heavy taxes while federal projects are tax free.

What is true of Texas is true in varying propor-

tion of every state in the Union. Socialized power soaks the many to subsidize the few.

The Big School Problem

Stewart Alsop, the liberal-minded writer on current affairs, recently made a little tour of some suburban schools. He was motivated in this by the proposal that the federal government provide funds for classroom construction.

At the beginning of his trip, Mr. Alsop was inclined to agree with the proposal. But at the end of it he was no longer so sure.

One reason for that is that the school situation, while serious in many places, "is not quite so desperate a crisis as it has sometimes been painted."

Another is that "If the federal government does move in, the federal government will stay in, despite the President's fond hopes."

Still another is that "surely there is something to be said for the notion" that the citizens of a state should be financially responsible for the education of their children."

Finally, Mr. Alsop came away from his tour with this impression—"that the teachers and officials I met, all admirable people, were a little too much interested in the buildings the children were taught in, and not enough in what they were taught."

All of these moderately-phrased observations are important—and the last is the most important of all. We will put the cart before the horse with a vengeance if we lay heavy emphasis on the physical characteristics of our schools—and only secondary emphasis on what goes on in the classrooms.

Grass Roots Opinion

PANHANDLE, TEXAS, HERALD: "With a socialistic trend developing in government, more and more people are losing their initiative. They are wanting security with small prospects. This information has been learned from surveys of high school and college graduates. Let's hope there are enough fighters left in America to keep the small, independent business man going."

CORVALLIS, ORE., GAZETTE-TIMES: "Newspaperdom can take pride in this year's Pulitzer prize awards to newspapers. Recognition of The Oregonian for its expose' of the vice and corruption involving municipal officials and officers of the Teamsters Union and the Chicago Daily News for determined and courageous public service in exposing a \$2,500,000 fraud in the office of the state auditor of Illinois is recognition of one of the prime services of good journalism."

TELL CITY, IND., NEWS: "We usually criticize the post office department. It wouldn't be playing fair if we failed to give it credit when it is due. This is on the brighter side. A mountain of red tape consisting of 1,685 different government forms has been eliminated by the department's forms control program since January, 1953."

HUNTINGTON, N. Y., TIMES: "Washington has no consideration for money. Once it is allocated, the bureaucrats insist it must be spent."

LENNOX, S. D., INDEPENDENT: "One hears a great deal about the 'big oil monopoly' that supposedly controls the U. S. supply of petroleum products. Yet, since 1925, while the price of clothing has increased 67 per cent, household furnishings 62 per cent and food 71 per cent, the price of gasoline has increased only 15 1/2 per cent. And the gasoline you fill up with today is a vastly superior product to what you purchased in 1925."

V.F.W. Plans Benefit Dance for National Home for Children

Sequoia Post No. 4551 of the Veterans of Foreign Wars, recently moved to larger quarters at the rear addition of 894 Main st., Antioch, announces a benefit dance sponsored by the post and the Auxiliary Saturday night, June 29, at 8:30 marks the start of the Juke Box Jamboree. All profits will be turned over to the V.F.W. National Home.

The National Home is the only children's home operated by a veteran's group. This village of children, near Eaton Rapids, Mich., just south of Lansing, consists of 640 acres of beautiful rolling Michigan land. Housing includes 24 two-story brick homes which house six to eight children and a house-mother. Four additional homes are under construction. The village has its own fire department, barns, milk herd, auditorium, and chapel where services of all faiths are held. Residents even raise their own vegetables.

Children at the National Home are from families of deceased veterans. Children are clothed, fed, educated through high school, and given medical care by the Home, supported through contributions of V.F.W. posts and auxiliaries.

V.F.W. Post No. 4551 desires to make this benefit dance an annual affair. They hope the public will support this program. Come out and dance to all the name bands of the nation.

Country Art Fair Will Benefit the McHenry Hospital

The Country Art Fair which will be held in McHenry on August 10 and 11 extends an invitation to artists interested in exhibiting in the show. Entry blanks may be obtained from Mrs. Richard Wilhelm, Cooney Heights, McHenry, before the deadline June 29th. The Fair is being sponsored by the Woman's Auxiliary of the McHenry hospital.

Two well known Chicago Art Galleries, Feingarten and Fairweather-Hardin, are sending paintings of some of Chicago's most prominent artists, among them are Margo Hoff, Francis Chapin and Rainey Bennett.

The Civic Arts Assoc. of McHenry County who have had experience in this field will cooperate with the McHenry Art Fair committee to make the show a memorable event.

Although all the paintings will be for sale some may prefer to bid on one of the originals at the auction planned as a feature of the show. The proceeds of the sale will benefit the McHenry hospital.

Mr. and Mrs. Joseph E. Horton spent last week with Mr. and Mrs. Lowell Smock and family in Silver Creek, N. Y.

Mr. and Mrs. Herbert Graham and children spent the week-end with their folks, Mr. and Mrs. Clifford Moore at Spooner, Wis.

The Navy delivered a hundred million pounds of cargo to the Antarctic during Operation Deepfreeze.

Gets Dollar for Suggesting Milk With Meal

Because she suggested milk with the meal, Mrs. Florence Strametz, waitress at Harold's Restaurant, received a silver dollar from Irving Carey (center) of the Carey Electric and Plumbing Shop. Carey is one of the many unidentified Lake County men who carried a silver dollar donated by dairy companies to use as a tip to the waitress or waiter who suggests milk with the meal. Watching the presentation, left, is Jim Fields.

Consumer Advantage Seen by U. of Illinois

Store competition and weather-inspired supply and demand adjustments send food budget costs lower for Chicago area families.

This early summer outlook is seen this week by the University of Illinois consumer service, based on weighting various marketing situations reported through its regular weekly survey of metropolitan food outlets. Consumer advantages stem from the facts of:

1. Overall improvement in the meat situation. Principal reasons—weather affects demand... hog prices drop on heavy supplies, and consumer resistance backed up loin cuts in many stores... beef is stable at retail but shows slightly lower wholesale costs... lamb and veal follow this pattern to a degree... glut-poultry conditions (including new-crop turkeys and continuing low-cost eggs) provide

added competitive influence on red meats.

2. Fresh produce heads toward the annual season peaks of July, setting the stage for price drops and promotions... fresh citrus prices ride considerably below last year's costs.

Salad and cooking oils go into price cuts by brands, as most other groceries remain stable.

4. Milk, cheese and butter are continuing values at steady prices.

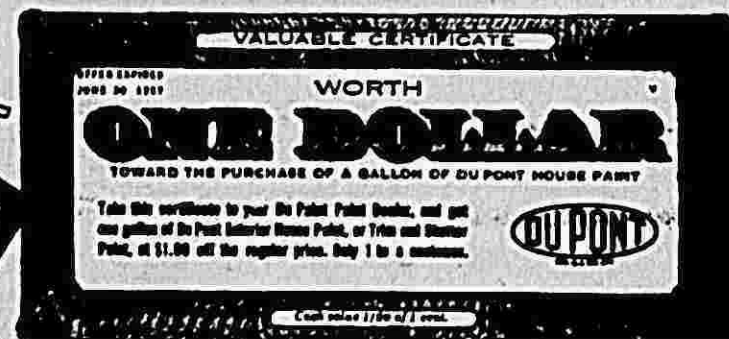

5. And finally, keener competition among retail outlets is very much in evidence, although it provides an unmeasured variable in exact evaluation of the market. One noticed result is more emphasis on spot-value promotions and jockeying for position to lure the consumer... exemplified by the continuing cut-rate milk situation.

Against this overall market view, the U. of I. points to these specific value considerations for the week ending June 22:

PUTTING THINGS TOGETHER BY LIVING THROUGH CHEMISTRY

What makes a company a good citizen*

These officials of Antioch Township are marking a milestone in the life of the township supervisor, Lloyd E. Murrie, fourth from the left. Supervisor Murrie has just received an award from Standard Oil for 23 years of service to his friends and neighbors as a Standard dealer.

Congratulating him on his success as an independent businessman are, left to right, Ted C. Larson, township attorney, Justice Richard B. Seyfarth, L. R. VanPatten Jr., township clerk, (Mr. Murrie), Justice Herbert J. Litchfield and Justice Richard Folbrick.

How 2500 small businessmen won success!

What does it take to be successful in the keenly competitive business world of today?

Well, let 2,500 small, independent businessmen who found success in something they liked and stayed with tell you how they did it. They are all in the same business—all Standard Oil dealers for 15 to 20 years or more. Since their business is one of the most competitive in the world, they speak with particular authority.

Here is their formula for success, and it applies to many other businesses as well—friendliness, helpfulness and efficient service. PLUS one other vitally important factor—high quality, always dependable products—products they are proud to sell to friends and neighbors.

One other thing. Their friendliness and helpfulness have never been confined to business alone. Of these 2,500 veteran businessmen, hundreds have served as mayors of their

towns, as city councilmen, and in Red Cross, Boy Scout, Community Fund or some other community activity.

Just recently we at Standard Oil proudly presented plaques to these 2,500 successful small businessmen throughout mid-America. Now we are looking forward to the time when the 15-year mark will be reached by many more of our 16,000 dealers who are winning success as independent businessmen with their friendliness, efficiency and dependability.

* What makes a company a good citizen?

Well, one gauge is a company's contribution to the economic stability of the communities in which it "lives" and "works". Business policies and practices that help other businessmen to grow and prosper are important steps in achieving that goal.

16 years as a Standard Oil dealer. Rudy C. Larson of Rockford, Illinois, says: "Small, independent businessmen like myself couldn't succeed in the oil business without the aid of a big company. For example, drilling for oil may cost up to a million dollars—and the well may be bone dry. Only big companies can take such risks."

26 years as a Standard Oil dealer. Edward L. Weseman of Hampshire, Illinois, says: "There's more to the oil business than finding oil and selling it. Standard Oil, for example, invests millions of dollars annually in research to improve the products I sell. That's one of the big reasons my business keeps growing."

23 years as a Standard Oil dealer. Ezra Marquis of Kankakee, Illinois, says: "I couldn't duplicate the equipment of a modern refinery—even on a small scale. Today it takes millions of dollars to make gasoline and other petroleum products. Without a company like Standard Oil behind me, I couldn't be in business for myself."

Great new scientific discovery

D-X BORON
boosts power of newest engines
(old ones, too!)

Now the power of boron—the chemical used in experimental missile fuels—has been harnessed for your car.

D-X Boron Motor Fuel, proved by millions of miles of driving, is here. This great discovery has been made possible by D-X Sunray's expanded research facilities and 10-million-dollar investment in refining equipment.

D-X Boron is an entirely new motor fuel. It liberates more power per gallon in your engine—new or old! It gives you smoothest power! Thrilling acceleration! Marvelous road performance!

Push your foot to the floorboard without fear of knock. D-X Boron has the highest octane in our history. Get it at your D-X Dealer's now!

D-X still gives you the famous plus—D-X upper-cylinder lubrication!

Lake Villa Minister Attends Conference

LAKE VILLA — The Rev. Gerald Robinson of the Community Methodist Church spent the week at the annual meeting of the Rock River Conference of the Methodist Church. Bishop Charles W. Brashares presided over the Conference, which was held at the St. James Methodist Church of Chicago.

Mrs. Robinson attended the annual luncheon meeting of the Rock River Ministers Wives Association, which was held in conjunction with the minister's meeting. The luncheon was held at the Thoburn Methodist church, also in Chicago. Mrs. Robinson was recently elected vice-president of the Chicago Northern District Ministers Wives Association, and will have charge of programs for that group for the coming year.

Not Until July 17

The Lake Villa Women's Society bazaar will be held July 17 at the Lake Villa Public School gymnasium. Plans for the day include a buffet luncheon and cards. Special children's tickets are available, and for them there will be a special menu, movies and sinner service for the afternoon.

Mrs. Martin Lau is general chairman for the affair, and has announced that the bazaar will carry out the theme of "July Jubilee."

Change Meeting Date

The Woman's Society of Christian Service of the Lake Villa Church has changed its July meeting to Tuesday, July 9 from the usual first Tuesday of the month. The combined circles of the church will meet at this time.

The Rebecca Circle of the Woman's Society will hold its meeting at the home of Mrs. Duane Wacaser, Lindenhurst, at 8 p.m. Monday evening (July 1). Mrs. Thomas Mellen will give the devotion, and members are to bring sewing and other projects for the bazaar.

Vacation School Aug. 19-30

The Commission on Education of the Lake Villa church is announcing the dates for the summer Vacation Church School. According to Mr. Karl Ohlendorf, commission chairman, the school will be held for two weeks, Monday through Friday mornings, beginning Aug. 19 and ending Aug. 30.

Awarded Silver Crosses

Four young people of the Cherub Choir were awarded silver crosses at Choir Recognition services Sunday (June 16) at the Lake Villa Church. The crosses, which will be worn over choir robes during the coming year, were awarded for perfect attendance, and were given to Glen Bocox, Roger Bocox, Susie Nielsen and Christine Robinson.

At the same service Mrs. Warren Brown, director of the Junior Choir for the past nine years, was presented an engraved gift hymnal for her years of service. Rev. Gerald Robinson was presented a similar gift hymnal for the pulpit by the Methodist Men of the church.

The official board of the Lake Villa Church will meet on Monday (June 24) at 8 p.m. It is expected that bids for construction of the new Lake Villa Methodist Church will be opened Friday evening, July 12.

Legion Auxiliary Hears

Plans for July Carnival

Details of the carnival to be conducted by the American Legion, its Auxiliary and the Knights of Columbus on July 10 to 14 were discussed before the Auxiliary Friday by John Horan, general chairman.

Hjordis Bremner was elected sergeant-at-arms of the Auxiliary to take the place of Ellen Swenson who resigned.

After the business was concluded, cards were played and refreshments were served by Maude Johnson and her committee, hostesses for the evening.

Bake Sale

Antioch Unit is sponsoring a bake sale on Saturday, June 22 in the Ford Sales room. Sale opens at 9 a. m. Ellen Swenson is chairman.

Owners of 19th Hole Entertain Aged Pair

Harold and Grace Eltherington, proprietors of the 19th Hole restaurant gave a little extra happiness to two elderly German residents of the German Old Peoples Home, Lake Villa, Sunday.

They sent a cab after an 88-year-old woman and an 82-year-old man and made them dinner guests for the day. Two other residents of the home were invited but were too ill to attend. The occasion was Father's Day.

Taking Army Training

Roger C. Strattan

Roger C. Strattan, son of David A. Strattan of Channel Lake, was inducted in the U. S. Army and left June 2 for Fort Leonard Wood, Mo., where he is now in training. He was graduated from Antioch Township High School in 1952 and attended Wright Junior college one year. He worked for Zenith Radio Corp., as a tool designer until his induction into the army.

W. S. C. S. OF ANTIOCH TO HOLD MEETING

The Mrs. O. R. Kresse, Mrs. Herman Grenzmann, and Mrs. Louis Biel circles of the Women's Society of Christian Service of the Methodist church will meet at the home of Mrs. O. R. Kresse, on Linden Lane, on Wednesday, June 26 at 1 o'clock p. m. for dessert luncheon. All other circles are cordially invited to attend.

Miss Alice Smith will give a review on the mission study of Southeast Asia.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. John Weiler, Richmond, Ill., announce the engagement of their daughter, Donna Ellen, to William Earl Cooper, son of Mr. and Mrs. James Raymond Cooper, Spring Grove, Ill. The wedding will take place August 17, at Peace Lutheran church, Wilmet, Wis.

SETS RECORD

Brattleboro, Vermont—The Holstein-Friesian Association of America has announced the completion of an outstanding official production record by a registered Holstein cow owned by Alfred H. Ames, Zion. Milked twice daily for 365 days, Taylor Grove Rag Apple 2986031 produced a total of 18,758 lbs. of milk and 683 lbs. of butterfat as a 7-year-old.

The University of Illinois, working in close cooperation with the National Holstein organization, supervised the weighing and testing of production as a part of the Herd Improvement Registry program.

This official testing program, commonly referred to as HIR, provides continuing lactation and lifetime production records on every cow in participating registered Holstein herds.

Registered Holstein breeders in 48 states are currently utilizing this basic information provided by their official records as a tool in the wise selection of individuals, families, and bloodlines necessary to continued improvement of their herds.

New Speed Law Effective July 1

As he signed into law at Springfield last week the General Assembly bill to fix definite speed limits on Illinois highways, Governor William G. Stratton describes the measure as "a milestone in our drive for highway safety." He added that he hopes to see a sharp drop in the number of fatal auto crashes caused by excessive speed.

The new law will go into effect July 1. The speed limits it provides for are the same for day and for night. The maximum for passenger cars is 65 m. p. h.; for buses, 60 m. p. h.; for trucks under 8000 pounds, 55 m. p. h.; and for heavier trucks, 50 m. p. h.

Under the law motorists will be required to drive at less than maximum speed when traffic hazards are increased by fog, snow or ice.

Taxation, Labor Are Biggest Problems for Business & Industry

What really bothers businessmen?

The National Association of Manufacturers has just completed a survey of more than 1,000 business and industrial concerns in 11 mid-western states which leaves little doubt as to what these men consider to be their greatest problems.

They are taxation and labor-management relationships. These two problems accounted for more than 47 per cent of all the problems cited, with taxation getting 27 per cent of the total and labor-management problems 20 per cent.

Significantly these ratios did not vary in any appreciable degree in any of the 11 states, nor was any variation noted when the surveys were analyzed on the basis of industrial classification.

In Illinois, these two problems accounted for 44 per cent of the total—taxation getting 28 per cent and labor problems 18 per cent.

Other problems mentioned, as being of prime concern, by Midwestern business leaders included pro-

duction costs, 10 per cent; Federal Government relations, 19 per cent; inflation, 8 per cent and "tight" credit, 7 per cent.

There also seems to be little doubt that business in this part of the country is optimistic about the future. Business uncertainty was mentioned in only 2 per cent of all the replies tabulated on the question of industry's greatest problems, although it was more frequently mentioned as a deterrent to future expansion plans.

International uncertainty ranked next to business uncertainty as the least pressing of the problems pointed out by business men in the area. It was mentioned in only 4 per cent of the replies. Competition received 6 per cent of the total mentions of all problems and employee shortage was also cited in 6 per cent of the responses. Nearly all of these, however, called attention to the fact that where shortages did exist, they were invariably in the skilled categories.

The NAM study, which was carried out by the Association's Midwest Division office in Chicago, is believed to be one of the most comprehensive surveys of business attitudes and conditions ever conducted in the Midwest. Of the more than 1,000 replies which were received and on which the study was based, 341 came from Illinois business and industry.

16-MILE HAUL—4300 FEET UP—When Sheriff Cal Boles of Maricopa County, Arizona, sends his 4-wheel-drive GMC to his radio transmitting station on a mountain peak, one round trip deals out more punishment than a year's ordinary use.

IT CROSSES 3 MOUNTAIN CHAINS, wades through shifting sand, picks its way over boulder-strewn passes—goes where no sane horse would set foot. The deal includes climbing up a 65% grade. But—"It hasn't even breathed hard yet," says the Sheriff.

How tough could you make it for this GMC 4-WHEEL DRIVE?

YOU probably never would push a GMC truck this far.

But it's great to know that GMC's can do incredible jobs, beyond all normal requirements for their class—and still run longer, cheaper and with fewer repairs than other trucks.

Got some tough assignments for this GMC 4-wheel drive? It's just about the handiest truck ever built—goes anywhere, makes its own roads, has full traction in muck

or deep snow, has clearance on high-crowned roads.

With a few accessories, it pulls stumps, drills postholes or wells, stretches fence, pumps water, hoists anything. It takes a king-size cargo and—in 2-wheel drive—gives you full road speeds.

The GMC 4-wheel drive is really two trucks in one—and it costs surprisingly little. Just ask your GMC dealer!

so modern, so clean, so cool!

As a Chicago retailer recently observed, "This is the electric age... electric servants are taking over in the home." Typical of this trend is the change to the electric range. Women like their modern looks and appreciate surface units that keep pots and pans bright. And electric ovens hold the

heat more evenly because they are insulated on all 6 sides (not merely five).

Such refinements as automatic roasting, broiling, frying, boiling are easy to take, too. Equally important, you can be sure your new electric range will be modern for many years to come.

Faulty Vision Is Held Number One Highway Menace

NEW YORK—Faulty vision and poor seeing habits are the number one highway menace, according to the Better Vision Institute. For safe travel, the driver's primary tools—his eyes—should not only be sharp and sure, but they should also be used with all-round skill.

Traffic conditions are growing more complex every day. Approximately 88,000,000 Americans now spend a good deal of time propelling themselves around in motor vehicles, some of which have the power of 200 horses under the hood and habitually travel from 10 to 14 times as fast as old Dobbin.

The roads are so overpopulated that thousands of accidents occur daily, although only one person is killed each year per 16,000,000 miles of movement. One car bumps into another every 42 seconds. One collides with a stationary object every 15 minutes. And a car and pedestrian come together violently every 3 1/2 minutes. This isn't surprising when you consider the magnitude of the problem. The surprising fact is that the drivers who have accidents are mainly decent, conservative, responsible people instead of harum-scarum hot-rodgers. Statisticians estimate that any driver is likely to have a serious accident once in seven years. Some have them oftener, some never.

A number of signs point to poor seeing as the crux of this baffling situation, so improvement should be sought primarily from that standpoint.

Wandering Mind Is Motorist's Hazard

ANN ARBOR—What is the average motorist thinking about just before he has an accident?

According to a survey made in Washtenaw County by University of Michigan traffic engineers, many of them were "trying to get the car home to the wife," were "worried about an examination," "just got married," "had a recent operation," or were concerned with similar earlier events.

Still others, it was found, were distracted by "children fussing in the back seat," "people talking," or a minor accident ahead. And other motorists queried were sick, tired, intoxicated, nervous, or otherwise abnormal.

In short, one driver in five was disturbed or not in his best physical condition, the survey shows.

These replies, in answer to questionnaires sent to county motorists involved in mishaps, point up the "chain of events" that often leads to accidents, reports Prof. Bruce Greenshields, in charge of the study. If any link in the chain can be broken he says, the accident may be prevented.

Expectant Fathers Take Spotlight, Incorporate

NEW YORK—Nature's gift to anonymity—the expectant father—took the spotlight recently when the National Expectant Fathers Club held its annual meeting at the St. Moritz Hotel in New York City.

The Club, incorporated in Washington, D. C., in 1948, is sponsored by the National Institute of Diaper Services. In preparation for their own blessed event, members of the Club—all fathers-to-be—are taught how to feed, bathe, burp and diaper babies. In some areas, the classes are conducted by the Red Cross as a regular part of prenatal courses.

Members of the Expectant Fathers Club are entitled to wear paternity pins. According to Aaron Bonoff, president of the New York City local chapter, this pin is presented to the member "... in recognition of his delicate condition and need for sympathy and understanding."

Other privileges and responsibilities symbolized by the paternity pin are outlined in a wallet size membership card.

Myopia Is Linked With Child's Eating Habits

CHICAGO—Recent studies indicate a possible connection between myopia (near-sightedness) and the eating habits of children, according to the Better Vision Institute. It was found that an unusually large number of myopic youngsters constantly refuse one or more of certain foods such as those first-class sources of protein—milk, cheese, meat, fish, and eggs.

The boys with highly active myopia are more fussy than the boys who are not nearsighted, and the myopic girls are still more inclined to pick and choose.

Roads Are Big Business
NEW YORK—About \$75 billion was spent on highways in the United States from 1920 through 1953, and nearly \$54 billion was collected from 1925 through 1952 from highway users through taxes on motor fuel and lubricating oil, registration fees and federal motor-vehicle excise taxes, notes a recent study.

Receive Instruction in Red Cross Water Safety Methods

Red Cross director of water safety Robert Montour, left, illustrates on the blackboard safety methods before a class of Antioch trainees. They are, left to right, Warren Polley, Carole Hansen, Winnie Sorensen, and Mary Shepard, who received instruction at the Artemus pool at Round Lake. The course prepares the students for the highest rating as water safety instructors.

Received into Membership in Antioch Methodist Church

Young people of the Methodist Church who were recently confirmed by the Rev. Howard Benson, are, left to right: front row—Phyllis Kopriva, Mary Wertz, Lorraine Gibbons, Lenore Janneke, Maxine Lemke, and Cheryl Lemke; second row—Judy Alm, Marjorie Reckers, Annette Royer, Bonnie Schneider and Margo Ott; third row—Arlad Shunnesson, James Morse, Donald Olson, Albert Dittman, Jr., and Brian Palenske; Fourth Row—Gary Schlunz, Bruce Wollpert, Gayle Augsburg, Lester Hribar and Jim Bill Cain, and top row—Gordon Volting, Rev. Benson, Harry Miller, Jr., and David Moorman. John Loeper was absent from the picture. Alan Moorman and Margo Jarvis had studied with this group and were prevented by illness from being confirmed with their classmates.

HEALTH TALK

TETANUS

The old idea that a puncture wound from a rusty nail is the cause of tetanus, or lockjaw, is a misconception, the Educational Committee of the Illinois State Medical Society observes in Health Talk. Tetanus may develop from almost any scratch or wound, if proper precautions are not taken.

The germ causing tetanus, identified more than sixty years ago, produces one of the most powerful poisons known. It is almost always present in soil contaminated by the body wastes of cattle, horses and other animals. The germ is thus a menace to children, farmers, gardeners, or others whose activities bring them into contact with such soil. However, many tetanus cases develop from injuries incurred elsewhere.

The Clostridium tetani, which causes tetanus, is what is called an anaerobic germ. That means that it thrives in the absence of air. Thus, when it is introduced into tissue so wounded as to close it off from the air, and also is hard to clean, conditions are perfect for its development. A puncture wound from a nail, or the wadding of a Fourth of July blank cartridge, is of that type. That explains the "rusty nail" idea from folklore.

The germ does not cause illness by a direct attack on tissue. Instead, it produces a toxin, or poison, which has a peculiar liking for nerve tissue. Symptoms are all due to its irritating effect on nerves. Thus there is at first some pain and twitching of muscles due to the nervous stimulation. Then come irritability, restlessness and chills. Then muscles begin to develop violent involuntary convulsions.

If the nerves controlling muscles of the jaw are affected, their contraction clamps the jaws tightly closed. Hence the term lockjaw. As the toxin extends its effects, major trunk muscles are involved and the back muscles in convulsion may pull the spine into a curve so that only head and feet touch the bed. The pain is excruciating. Meanwhile, however, the mind remains clear. Death is due, not to the poison directly, but to exhaustion, heart failure, or suffocation caused by spasm of the throat muscles. In untreated cases, it comes within about four days, but, if the patient can be carried through the tenth day, about fifty per cent recover.

With the discovery of tetanus toxin in 1924, tetanus became a preventable disease. Children regularly under the care of a physician are given immunization doses, along with their preventive inoculations against other diseases such as diphtheria and whooping cough. Every child should have this protection, because the germ may contaminate any wound.

Tetanus may occur any time, but particularly in the summer months, when so many persons are outdoors. Everyone who plans to be working in the soil or around animals should consult the family physician for preventive "shots" of tetanus anti-

toxin. If the skin is punctured, see your physician at once. In addition to administering the toxoid, he will open up the wound, remove any contamination, and apply antiseptics.

Tetanus is easier to prevent than cure. Everyone should be immunized. Take no chances. What you consider a minor injury, may, in reality, be the site of the tetanus germ.

ABOARD DESTROYER

Layden J. Lovelace, fireman, USN, son of Mrs. Victor Lovelace of Antioch, Ill., and husband of the former Miss Viola L. Hlinkey of Janesville, Wis., aboard the destroyer USS Cushing, visited San Francisco, Calif., June 13-17, following a major Pacific Fleet training exercise with the U. S. First Fleet off the California coast.

Some 18,000 men and 40 ships were involved in the exercise. On arrival in San Francisco Bay, Vice Admiral Robert L. Dennison, Commander of the First Fleet, conducted a Review from his flagship, the ed USS Rochester, as the ships cruised in column under the famed Golden Gate Bridge.

The Review launched the observance of "Fleet Week" by cities of the bay area and surrounding communities.

The visit to San Francisco was for rest and recreation for personnel of the ships who had been operating under intense simulated combat conditions during the first two weeks in June.

The ships were scheduled to return to their home ports in Long Beach and San Diego following the visit.

Commissioning Ceremonies

Formal commissioning ceremonies in Orchestra hall 700 Brompton ave., on June 17 at 8 p. m. will climax nine months of study by 46 cadets of The Salvation Army School for Officers' training.

"Marching orders" and commissions as probationary lieutenants in the Salvation Army will be given to the 29 women and 17 men cadets of the "Faithful" session by Commissioner Claude E. Bates, Commander of the Army's 11-state Central territory.

Special recognition will be given to the mothers of the cadets receiving commissions. Each mother will receive a silver star and will be enrolled in the Order of the Silver Star. Mrs. Chester W. Hasney, Rt. 3, Antioch, will represent all the mothers in a brief presentation ceremony to be conducted by Mrs. Colonel Glenn Ryan. Mrs. Hasney has a son and daughter-in-law, Mr. and Mrs. William Hasney, also of Rt. 3, Antioch, who are members of the current session of cadets, and three other children who are Salvation Army officers.
